Voted that payment of note for Great Plain avenue repairs be deferred for one year.

Voted that the sum of ten (10) dollars be appropriated to pay the moderator for his services.

ART. 12. Voted that the highway grant be expended under the direction of the selectmen, they to appoint one superintendent of streets.

ART. 13. Voted that all poll taxes shall be payable on demand, and all other taxes on or before the first day of October. Interest at the rate of one-half of one per cent. a month shall be charged on all taxes not paid on or before the first day of November. The collector shall use the means provided by law for the collection of all taxes remaining unpaid after the first day of December.

[The above paragraph shall be printed on the tax bills.]

Voted that the collector of taxes shall have the same power which the treasurer would have when acting as collector.

If in the judgment of the collector, that in consequence of removal, or any other circumstance, any tax should be collected before the first of October, he is fully authorized to serve his warrant in the collection of such tax at any time. The collector shall guarantee the full amount of all taxes legally assessed and committed to him for collection, and shall be held to pay the town treasurer the same, with any interest that may accrue thereon, except such sums as may be abated by the assessors; he shall pay the said taxes and interest from time to time, as he collects the same, and shall pay the full amount of all the taxes committed to

him, with the accrued interest, on or before the first day day of February, 1892. The compensation of the collector shall be one and one-fourth per cent. on all taxes and interest collected by him and paid to the treasurer. When one-half the amount of the warrant has been paid, he shall be entitled to receive his commission on that amount, and the balance when the full amount of taxes and interest has been paid into the treasury.

Art. 14. Voted unanimously that the treasurer be authorized, with the approval of the selectmen, to borrow on temporary loan such sums of money as may be necessary, in anticipation of the collection of taxes, the same to be paid therefrom.

Art. 15. The list of jurors as prepared and posted by the selectmen was submitted to the meeting. The names of Thomas J. Crossman, James H. Smith and Cyrus G. Upham were stricken from the list, and the names of Geo. E. Eaton, Hermon E. Leland and Albert J. Jones added to the list, which, as amended, is as follows:

George A. Adams, John Arnold, Edgar H. Bowers, Alpheus P. Boyd, Charles H. Crowley, Geo. W. Dewing, Geo. E. Eaton, Everett J. Eaton, John F. Edwards, W. C. Freeman, Wallace Fox, James Ford, Jr., Andrew G. Gardner, Ralph D. Gillette, Frank Graves, Solomon W. Hutchinson, Charles P. Holmes, Albert J. Jones, Hermon E. Leland, Thomas Lester, Chas. A. Low, Alexander Lynes, Jr., Timothy T. Malony, Martin McDonald, Henry M. McIntosh, Ferdinand Remmele, Polydore E. Riley, John T. Slaney, Frederick D. Sutton, Elias Tuttle, Joseph B. Thorpe, Wm. M. Whitney, John H. Whittemore, Chas. H. Woodruff, George Wright.

Voted that the list as amended be accepted.

Art. 16. Voted that the town clerk cause to be printed official copies of the proceedings of this meeting, one of which he shall send to each officer of the town within two weeks after the final adjournment of this meeting, and shall deliver one copy to any voter or tax payer in the town who may apply for it, and that the town clerk furnish a copy of the record of each and every town meeting held during the year for printing, so that it may be bound with the annual report of town officers.

Voted that the selectmen cause the valuation list and the other reports and accounts of town officers to be made up to December 31st, inclusive, and placed in the hands of the auditors, who shall examine and make report on the same; that the selectmen shall cause the same to be printed and distribute them among the tax payers of the town at least seven days before the annual meeting.

Art. 17. Voted that the sum of one hundred and fifty (150) dollars be appropriated for Memorial Day.

Art. 18. Voted that all town meetings be notified and warned by posting a copy of the warrant for the same, properly attested, in not less than twenty public places in the town, at least seven days before the time of said meeting. And that a copy of the town warrant be left at each dwelling house in town, at least seven days before said meeting, but the leaving of a copy as aforesaid shall constitute no part of the service of said warrant.

Art. 19. Voted that the sum of one hundred (100) dollars be appropriated for the care and improvement of public grounds.

Art. 20. Voted to adopt the following

BY-LAWS.

Art. 1. The plumbing of all buildings and the building of all drains, cesspools, and sewers in the town shall be under the supervision and subject to the approval of the board of health, or board of selectmen when acting as a board of health.

Art. 2. Whoever shall at any time fire India crackers, torpedoes or other explosive articles, or discharge any firearms, cannon or swivel in any street or way near any vehicle passing thereon or any dwelling house, except in the performance of some legal duty, or with the permission of the board of selectmen, shall forfeit a sum not less than one dollar nor more than ten dollars for each offense.

Art. 3. Three or more persons shall not continue to stand or remain in a group near to each other on any sidewalk, or in any public place, in such a manner as to obstruct a free passage for foot passengers, after having been requested by a constable or police officer to move on, and any person who shall violate the provisions of this by-law shall forfeit and pay a sum not exceeding five dollars.

Art. 4. No person shall ride a bicycle, tricycle, velocipede or other vehicle upon or over any sidewalk in the town, and any person who shall violate the provisions of this by-law shall forfeit and pay a sum not exceeding five dollars.

Voted that Article 2 of the by-laws of the town relating to truants, adopted May 28th, 1890, be hereby amended by striking out the words "Norfolk County Truant School," in said article, and inserting in place thereof the words "Norfolk and Bristol Union Truant School," so that said section shall read as follows:

Art. 2. Any child between the ages of seven and fifteen years, residing in said town, who is an habitual truant, or who may be found wandering about in the streets or public places of said town, having no lawful occupation or business, not attending school and growing up in ignorance, or who persistently violates the rules and regulations of the common schools, shall be committed to the Norfolk and Bristol Union Truant School in Walpole, in the county of Norfolk, for a term not exceeding two years.

Voted that the town clerk be instructed to obtain from the proper authority approval of the foregoing by-laws.

Voted that after the by-laws have been approved by the proper authority, the selectmen cause them, together with their rules and regulations in regard to plumbing, to be printed for distribution.

Art. 21. Voted that the subject matter of this article be referred to the selectmen for investigation.

Art. 22. Dismissed.

Art. 23. Dismissed.

Art. 24. Dismissed.

Art. 25. Voted that the town clerk, with the approval of the selectmen, be authorized to transfer to the town clerk of Wellesley such plans and papers as should be in the custody of the town of Wellesley.

Art. 26. Voted that the water commissioners are instructed to make such extensions of water mains as in their judgment would be for the interest of the town.

Voted that the board of water commissioners, in pur-

suance of the provisions of an act of the Legislature of 1891, be authorized and directed to issue bonds to the amount of fifteen thousand dollars ($15,000) said bonds to bear on their face the words "Needham Water Loan," to bear interest at the rate of four per centum per annum, payable semi-annually on the first days of March and September in each year, to be of the denominations of five hundred and one thousand dollars, in such proportions as the water commissioners may determine, to be dated Sept. 1st, 1891, to be signed by the treasurer of the town and countersigned by the water commissioners, to be payable in such manner and at the expiration of such periods, that five hundred dollars of said loan be paid in each of the years from 1902 to 1917 inclusive, one thousand dollars of said loan be paid in each of the years from 1918 to 1920 inclusive, and four thousand dollars of said loan be paid in the year 1921. (Passed unanimously.)

Voted that the water commissioners are herewith authorized to sell said water bonds at public or private sale or pledge the same for money borrowed for the purposes of the act of the Legislature therein before mentioned, and that they are also hereby authorized and directed in behalf of the town and in its name to do all other acts and things necessary and proper to carry out the purposes of this vote and the said act or acts of the Legislature, and in accordance with the provisions of the same.

Voted that the proceeds of the sale of the fifteen thousand dollars of bonds authorized by the Legislature and a vote of the town be appropriated for the construction and extension of water works and the necessary expenses attending the same.

Voted that the town treasurer be authorized to borrow

such sums of money as may be needed, with the approval of the water commissioners, in anticipation of the issuing of the water loan bonds, and that he pay all orders made upon him by the water commissioners.

Art. 27. Voted that the design for a town seal presented by the committee appointed at the last annual meeting for that purpose be adopted as the corporate seal of the town of Needham, and that the same committee be authorized to have a die and cuts of said seal made, said design being a landscape view representing High Rock in the background, with an oak tree on the right, an Indian's wigwam on the left, and in the foreground water representing the Charles river, on the bank of which stands the figure of an Indian in the act of delivering a scroll or deed to two white men, said view being enclosed by a beaded circle surrounded by the words "Town of Needham. Incorporated 1711," the whole being enclosed by a border of two circles, the inner beaded, the outer plain.

After the articles in the warrant had been disposed of the following resolution was adopted by the meeting, viz.:

"Resolved, That the selectmen be instructed to confer with the authorities of Boston with a view to securing their co-operation in a petition to the county commissioners of their respective counties, asking them to lay out an extension of Great Plain avenue to Centre street, Boston."

After the moderator had made declaration of the result of the voting for town officers, and upon the question of granting licenses for the sale of intoxicating liquors, the ballots cast for said officers and upon said question were secured in an envelope and sealed up in open town meeting by the moderator, who endorsed upon the envelope for

what officers the ballots were cast, the date of the election, and a certificate that all the ballots cast for said officers and upon said question and none other, are contained in said envelope. The ballots, sealed as aforesaid, were then delivered by the moderator into the custody of the town clerk.

The ballots not distributed, together with the check lists used by the ballot clerks, and certified by them to be such, were secured in an envelope, sealed, and delivered to the town clerk.

The meeting was then declared dissolved by the moderator.

Attest: CHARLES C. GREENWOOD,

Town Clerk.

To EDWIN C. MOULTON, a Constable of the Town of Needham, in said County, GREETING:

In the name of the Commonwealth of Massachusetts you are hereby required to notify and warn the inhabitants of the town of Needham, qualified to vote in state elections, to meet at the Town Hall in said town, on TUESDAY, THE THIRD DAY OF NOVEMBER next, at seven o'clock in the forenoon, then and there to give in their votes for the following State and County officers, viz:

Governor; Lieutenant-Governor; Treasurer and Receiver-General; Secretary; Attorney-General; and Auditor of the Commonwealth.
Councillor for the Second Councillor District.
Senator for the Second Norfolk District.
Representative to the General Court for the Ninth Norfolk District.
Clerk of the Courts for five years.
County Commissioner for three years.
County Treasurer for three years.
Register of Deeds for three years.
To vote "yes" or "no" on the following amendments to the Constitution:

Shall the proposed amendment to the Constitution relative to the qualification of voters for governor, lieutenant-governor, senators and representatives, be approved and ratified?

Shall the proposed amendment to the Constitution making a majority of members a quorum in each branch of the general court, be approved and ratified?

All to be voted for on one ballot; and the polls may be closed as early as four o'clock in the afternoon of said day.

And you are directed to serve this Warrant by posting attested copies thereof in not less than twenty public places in said town at least seven days before the time of said meeting.

Hereof, fail not, but make due return of this Warrant with your doings thereon, unto the Selectmen on or before said day and time.

Given under our hands at Needham, aforesaid, this Twelfth day of October, A. D. Eighteen hundred and ninety-one.

THOMAS SUTTON,
ARTHUR WHITAKER,
AARON TWIGG,
} *Selectmen of Needham.*

OFFICER'S RETURN.

NEEDHAM, October 24, 1891.

NORFOLK, ss.

By virtue of the within warrant, I have notified and warned the inhabitants of the within named town of Needham, as within directed, by posting true and attested copies of this warrant in more than twenty public places within said town of Needham, more than seven days before the time of holding said meeting.

EDWIN C. MOULTON,

Constable of Needham.

A true copy—attest: CHARLES C. GREENWOOD,

Town Clerk.

Record of State Election, Nov. 3, 1891.

In pursuance of the foregoing warrant, the inhabitants of the town of Needham, qualified to vote in elections, met in the Town Hall in said town, on Tuesday, the third day of November, in the year one thousand eight hundred and ninety-one, it being the Tuesday next after the first Monday in said month, and were called to order at seven o'clock in the forenoon by Arthur Whitaker, acting chairman of the board of Selectmen, who read the warrant calling said meeting and the return thereon of the officer who warned and notified the inhabitants.

The Selectmen appointed George A. Adams and Walter Hewett as inspectors, and Howard A. Crossman and Charles H. Crowley as deputy inspectors, and they were sworn to the faithful discharge of their duties by the Town Clerk.

The package containing the "first set" of Ballots received from the Secretary of the Commonwealth was then delivered by the Town Clerk to the acting chairman of the Selectmen, who publicly opened the package and delivered the ballots to the inspectors acting as ballot clerks. Cards of instruction were then posted in each of the voting compartments which had been provided as required by Section 21, Chapter 413 of the acts of 1889. Cards of instruction and the specimen ballots were posted in the hall outside of the guard rail in accordance with the provisions of said act.

The ballot box furnished by the Commonwealth for use at elections was then publicly opened and shown to be

empty, and was examined by the Selectmen and Town Clerk and ascertained to be empty.

The box was then locked and the key of the lower part delivered to Edwin C. Moulton, the officer in attendance at the election.

The polls were then opened for the reception of ballots, and were kept open until thirty minutes past four o'clock in the afternoon, when by vote of the meeting they were closed. At the opening of the polls the ballot box register indicated 0; at the close, 478.

The Selectmen having appointed Walter Hewett, George A. Adams, Howard A. Crossman, Charles H. Crowley and James Ford, Jr. as tellers, they were sworn to the faithful discharge of their duties by the Town Clerk.

The names on the list of voters which had been checked were counted by Arthur Whitaker, the presiding election officer, and the number found to be four hundred sixty-six (466). The ballots were then taken from the box and audibly counted one by one, and the whole number was four hundred sixty-six (466). Two separate canvasses of all the votes cast were made by the election officers as required by the provisions of Chap. 328, Acts of 1891, the blank forms furnished by the Secretary of the Commonwealth being used. The result of such separate canvasses were reported to the presiding election officer and by him compared, each set with its duplicate, and it was found that they agreed, and the result was recorded on the blank form provided for that purpose. Upon the completion of the canvass of all the votes cast, and the whole number duly sorted, counted and recorded, declaration thereof was made in open town meeting as required by law, and were as follows, viz:

Whole number of ballots, four hundred sixty-six.

Yes, two hundred and ten.
No, thirty-six.
Blanks, two hundred and twenty.

In voting, no person was given a ballot by the ballot clerks until his name had been found upon the list of voters and checked, and no person was allowed to vote until his

name had been checked upon the list in charge of the selectmen and town clerk.

The returns of votes were signed by the selectmen attested by the town clerk, and sealed up in open town meeting as required by law, and delivered to the town clerk.

The ballots cast were then sealed up in an envelope by the selectmen, who endorsed upon the envelope for what officers the ballots were cast, the date of the election, and a certificate that all the ballots cast and none others are contained in said envelope.

The ballots, sealed as aforesaid, were placed in the custody of the town clerk. The list of voters which had been used at the polls by the selectmen was sealed up and retained by them. The spoiled ballots and those not distributed, together with the check-list used by the ballot clerks, and certified by them to be such, were secured in an envelope, sealed and delivered to the town clerk.

Voted that this meeting be dissolved. Dissolved.

ANNUAL

REPORT OF THE SELECTMEN

For the Year 1891.

Superintendent of Streets.

With the confidence born of experience, and in appreciation of past services, we re-appointed C. H. Dewing to this important office, and with his characteristic skill and ability he has fulfilled every expectation.

Highways.

The amount expended in excess of appropriation is due to causes which were unforeseen when our estimates for the year were submitted, viz.: The defective back filling of the water trenches and the unexpected cost of building "Wright's Wall."

Early in the year we determined that that legacy of incompleteness known as "Wright's Wall" should be finished. For years it has been an eyesore to the public and a reproach to the town. It is now completed, and although the expense has been great, we feel sure the expenditure will be approved. In connection with this job we have blasted away the ledge which protruded into the roadway east of Mr. Wright's house; by so doing we secured two desirable

results, the widening of the road and the stone for building the wall.

We have procured four new snow plows and propose to give every portion of the town prompt service in breaking paths.

High Street.

Knowing that the operations of this department are under the constant scrutiny and subject to the criticism, not only of our own citizens, but of all who use our streets and highways, it has been the policy of the present board to make thorough work on particular jobs, rather than a series of cheap, make-shift jobs scattered over a large section. What is to be done we believe should be well done. Acting on this principle, we have practically rebuilt the above street. The cost has exceeded the estimate but the street is now in a condition that will be appreciated by the travelling public, and is most satisfactory to the abutters.

Water Trenches.

We have expended about five hundred dollars on this account. The breaking and caving in of the trenches, the obstruction of the gutters and consequent gullying of the roadways, and the protest of citizens against the dangerous and unsightly ridges in the streets, necessitated the outlay, which we believe should be charged to construction account of the water works.

General Repairs.

The necessary general repairs have been attended to and considerable work has been done on culverts in different parts of the town.

Fencing.

We have again expended a large amount on fencing; every foot erected was a necessity. The work has been done in a most thorough manner, and the cost has been as low as was consistent with good material and work.

Sidewalks.

There has been but little application for gravel sidewalks during the past year. It will be noticed that while we have overrun the appropriation for concrete sidewalks, and have built concrete crossings for which no appropriation had been made, there is still quite an unexpended balance of the general appropriations for sidewalks. We would recommend that the appropriation for sidewalks be made general instead of specific.

The thanks of the town are due to Mr. C. W. Jones for setting back his fence on Great Plain avenue. It is a great improvement.

Concrete Sidewalks.

We deem it unnecessary to enter into a lengthy statement as to the expenditure of the appropriation for the above purpose. A perusal of our financial statement will show that. We cannot, however, allow this opportunity to pass without expressing our appreciation of the public spirit shown by Messrs. Bowers, Stedman and Harrington in deeding to the town two front feet of their land for the purpose of widening the sidewalk, in addition to paying half the expense of concreting. The improvement of the May and Kingsbury estates is the subject of general commendation. We recommend a still larger appropriation for this purpose for the ensuing year.

Concrete Crossings.

We have made concrete crossings at Chestnut street, Maple street and Great Plain Avenue. They have proved to be a great public convenience. Part of the expense was borne by the N. Y. & N. E. R. R. Co. and Mr. F. E. Stedman, *vide* financial report.

Street Lights.

The contract for lighting was again awarded to W. F. C. Balen. The work has been done in a satisfactory manner. It must be apparent to all that Needham is far behind her sister towns in the method of street lighting. If we would grow as a community we must keep shoulder to shoulder with them in the march of improvement. We believe Needham to be the only town within a twelve mile radius of Boston that is not lighted by electricity. This should not be. We think the time has come when this matter should be taken in hand, and would advise the adoption of the act of the Legislature allowing towns to establish their own electric plants.

Poor.

The detailed statement in our financial report will show our expenditures on this account. The deficiency is due to the unexpected increase in the cost of supporting our poor, notably in the case of Thomas Taylor, the Poyner family, and the inmates of the almshouse. There have been two deaths during the year, Catherine Kelley (insane) and Thomas Taylor. John Poyner has deserted his family, thus throwing the whole expense of supporting his numerous progeny upon the town. The money advanced for the support of Sarah Gillow in 1890 has been wholly expended, and she is again a town charge. We have four inmates at

the Wellesley almshouse, and owing to the feeble condition and consequent extra care demanded by three of them, viz., Bridget Mitchell and John Kingsbury and wife, we are having to pay $3.25 per week, instead of $2.50, as formerly.

Police.

The deficiency on appropriation for police is largely due to the effect of the new law, which throws the payment of fees and services on towns instead of the county. As a partial offset to this all fines are turned into the town treasury. For detailed statement of the doings of this department see police report.

Liquor Law.

We have made every effort to suppress the illegal sale of intoxicating liquors. There are many difficulties encountered in the enforcement of the liquor law. Citizens who claim to know of violations of this law, and who would not hesitate to assist an officer in any other matter, absolutely refuse to make disclosures in this. It is therefore necessary for officers to depend on their own observations for evidence of a violation of the liquor law. And although they may be fully satisfied in their own minds that illegal sales of liquor have been made, in many cases the evidence would not satisfy a court or jury.

Law.

In the case of Weeks vs. the Inhabitants of Needham, two trials have been held. At the first trial the jury disagreed, the second resulted in a verdict for the town. Exceptions, however, have been filed by the plaintiff, which are to be argued before the Supreme Court.

In the Oak street case several hearings have been held.

A decision has not yet been rendered. On the appeal of G. W. Colburn from the award of the water commissioners for land seized by them, several hearings have been held before the county commissioners. The award of the latter has not yet been made.

CHIEF ENGINEER'S REPORT

For 1891.

This town has been very fortunate in regard to fires the past year, there being only one fire where loss was sustained, which was the Hotel Wellesley, in the western part of the town, on Dec. 19, 1891.

The equipment of the department is in very good condition, having received the past year two new hose wagons and 1,500 feet of new hose. We have now 3,500 feet of hose in good order. The department is in need of some extra supplies to make it complete, so that in case we have a large fire we will be fully prepared for it.

The board recommends the disposal of one of the hand engines, as it is really out of service ; also the purchase of one extension ladder and two roof ladders, and the extension of the fire alarm system, putting one box on Hunnewell street, Highlandville, and one at the corner of Webster street and Dedham avenue.

JOHN H. WHITTEMORE,

Chief Needham Fire Dept.

GEO. E. JONES, Secretary.

Report of Health Officer.

To the Board of Health. Gentlemen:

I herewith submit the following report for the year ending Dec. 31, 1891:

The labors of the Board of Health are of such a nature that they can never be very agreeable and in many cases cause bitterness of feeling. In most cases we have no complaint to make of the way our efforts have been met by the people, but we shall not be fully satisfied till the sanitary conditions of the town as a whole, are materially advanced beyond their present condition.

As a step in this direction during the coming year, we would recommend that a course of house-to-house inspection be begun, a work of detail that will require much time and labor, but must prove valuable as far as it reaches. A few towns in the state that have adopted this course have become after a few years models of health and attractiveness to country residents.

The work of the Board of Health has been mainly the same this year as in former years, consisting largely in dealing with nuisances of a greater or less degree. About the same number of complaints of nuisances have been received as in previous years, and orders given for abatement, which in almost every case have been quickly and cheerfully complied with. A great many places have been examined and nuisances abated without our having received any formal complaint.

This work has required 124 visits from the Health officer, 30 letters have been written, besides attending to the usual verbal requests, decisions and answers to questions, and the exchange of annual reports, rules and regulations of the Board.

Some of the most difficult cases to adjust have been the keeping of swine. It is not easy to draw the line definitely between a merely unaccustomed agricultural atmosphere and one that is detrimental to health. Domestic animals have thus far been deemed essential to the necessities of civilized man, and they must be kept somewhere; the refuse of stables and pens and those of dwelling houses must be disposed of in some way, the natural disposition being as fertilizer applied to farm and garden soil, and while being disturbed in the process of removal, odors more or less disagreeable are unavoidable. This fact should be borne in mind by those who may be temporarily annoyed thereby, while at the same time owners of swine and other animals should not forget that neighbors and the public have rights as well as themselves.

Plumbing.

Twenty-six (26) old and new houses have been inspected. Frequent calls have been received for the inspection of old plumbing where parties felt uneasy and desired to know if everything was in good condition. There being no by-laws or regulations requiring plumbers or owners of houses to notify the Board when work is ready for inspection, it has caused unnecessary visits to the houses by the agent for the purpose of examination and approval, as required by by-law of the town.

Wells.

While having a good supply of pure water for a large part

of the town, there are portions that have not been blessed in this respect. There are also some individuals who still cling to their excellent (?) well of water, feeling that it possesses the same purity that existed 50 years or more ago, before so many cases of pollution had arisen. From causes of sickness that have arisen or complaints that have been made, five samples of well water have been taken and examined by the State Board of Health. The result of two only have been received at the time of making this this report.

Ventilation.

On June 8, 1891, a public hearing was held for the purpose of discussing additional means of ventilation for the Kimball scholhouse, which came by appeal from the order of the state inspector under a new law. The inspector, who was present at the hearing, gave a practical illustraion of the test for determining the amount of carbonic acid gas present, which was found in too large quantities.

Accepting as a truth that saying of the great Dr. Franklin, that "Public health is public wealth," and which an eminent hygienist of England lately said should be inscribed in letters of gold over every schoolhouse and public building throughout the land, the idea prominent in the minds of many persons, is that, to secure ventilation, it is only necessary to open a window. This surely admits a copious supply of air, but provides no method for passage outwards of the foul air which is the very essential of good ventilation. Perfect ventilation consists not only in the introduction of pure air, but in the drawing out of that which has become vitiated. An important question arises, what amount of fresh air per head should be delivered per hour to insure perfect ventilation and good health. According to the best informed

on this subject the standard is about 3,000 cubic feet. If the cubic space for each person in a room is small, renewals of the air will necessarily have to be much more frequent than when it is larger. Thus with a space of 100 cubic feet, the contained air must be renewed thirty times per hour in order that the standard amount be supplied. Although it may be an easy matter to ventilate a room without any regard to temperature, or to warm it without providing for a due supply of fresh air, it becomes a problem of very considerable difficulty to ensure in all cases that both ventilation and warming shall be efficient and satisfactory. This difficulty depends in a great measure on the fact that the means employed in ventilating necessarily carry off a certain quantity of the heat which should be utilized for warming purposes. The question must arise, how is the impure air to be removed? Unfortunately this is not always an easy matter to decide. It has excited warm disputes between rival originators of so-called systems of ventilation, and has put into the market a multitude of patent devices designed to solve the question of the best way to supply pure air to the enclosed space.

Numerous systems have been tried in various places, some giving good satisfaction in one place and not in another. With these results the Board of Health do not feel warranted in adopting any new system until better general results are obtained, the expense of which must necessarily be great, yet they, as well as many citizens, feel that some step in this direction ought to be taken. No matter what system of ventilation is used, it is of vital importance that the air supply should be derived from a pure source, and that for the effective working of any scheme of artificial ventilation the following are essential:

I. An inlet for fresh air.

II. An outlet for vitiated air.

III. Proper means of promoting the motion of the air

current in the right direction.

Glanders.

The board has been called to investigate but one case of contagious disease among domestic animals. This was a horse suspected of glanders. Mr. A. W. Cheever, State Cattle Commissioner, was immediately notified as required by law. A veterinarian was also called to examine the case. He decided that it was a suspicious case, and it was ordered isolated and put through a special course of treatment. In two weeks, no further symptoms having developed, the animal was allowed to leave quarantine.

Diseases Dangerous to Public Health.

The year just closed has been exceptionally free from any serious outbreak of contagious and infectious diseases. 30 cases have been reported. The number of each is as follows:

Diphtheria,	4
Typhoid Fever,	12
Scarlet Fever,	2
Measles,	12

The experience of all Boards of Health has clearly shown the necessity of restrictive measures against the spread of diseases dangerous to public health. There is a lack of co-operation of some of the physicians and house-holders in immediately reporting all cases of contagious diseases as required by law.

Diphtheria.

Public sentiment has been educated to that point that it heartily endorses all measures, even to force, to suppress small pox whenever it appears, and yet statistics of this

country and the experience of physicians clearly show that small pox is not to be dreaded one tenth part as much as diphtheria. Small pox is a loathsome disease whose progress is clearly defined, understood and controlled by the physician. Diphtheria, on the other hand, is a treacherous foe working in the most underhand manner, deceiving the experienced physician and baffling the most skilled treatment. Of the few cases of diphtheria that have occurred they have been local and specific rather than epidemic. Of the four cases reported, two occurred in the same family, one terminating fatally in a few days. One other case, that of a small child reported early in the season, also terminated fatally a few hours after being reported.

Scarlet Fever.

This disease has been much less prevalent than for several years, only two cases being reported against twenty for last year.

Typhoid Fever.

The number of cases of typhoid fever was largely in access of that of any previous year for ten years or more. Its height was from the middle of August till the middle of September. This disease is often created and developed by bad drainage or contaminated drinking water. The unusually heavy rainfall of the past season has probably aided local causes in producing these results, and it is without doubt that a majority of the cases reported can be traced to the use of impure well water.

Report of the Water Commissioners.

To the Citizens of Needham :

The Water Commissioners herewith present their second annual report for the year ending Dec. 31st, 1891 :

At the town meeting held March 2nd, 1891, the town instructed the commissioners to make such extensions of water mains as in their judgment would be for the interest of the town, and authorized and directed them to issue bonds to the amount of fifteen thousand ($15,000) dollars, to be of the denominations of five hundred ($500) and one thousand ($1,000) dollars, in such proportions as the commissioners may determine, five hundred dollars of the loan to be paid in each of the years from 1902 to 1917 inclusive, one thousand in each of the years 1918 to 1920 inclusive, and four thousand in the year 1921. We were also authorized to sell the bonds and to do all acts and things necessary and proper to carry out the purposes of the vote and the act or acts of the Legislature. It was voted that the proceeds of the sale of the bonds be appropriated for the construction and extension of the water works and necessary expenses.

Under the above vote the board have laid this season 19,455.4 feet of street mains ; this added to the 40,794.4 feet laid in 1890 would give us 60,249.8 feet of pipe, or 11.41 miles. On the 23rd day of March a contract was made with Louis E. Hawes, Esq., to prepare plans, make measurements and superintend the extensions of water mains.

Pipe.

On the 30th day of April we received proposals for furnishing the necessary pipe,—the R. D. Wood & Co., of Philadelphia, Pa., being the lowest bidders were awarded the contract. The contract for pipe laying was awarded to E. E. Eglee, of Flushing, N. Y., April 30th, 1891, at the same price paid in 1890. The contract for putting in the service pipes was made March 31st, 1891, with the aforementioned E. E. Eglee, and continued to Sept. 16th.

At the expiration of Mr. Eglee's contract a contract was made with Messrs. J. F. Buckley & Co., of this town, for one year. In nearly every instance where extensions have been made we have required a six per cent. guarantee for three or five years, so that if we have made extensions faster than many other towns we have made them, as we think, safely. It has been the intention of your commissioners to make the burden of the water taxes as light as is consistent with making the plant pay in a reasonable time. We have now 249 takers. We have put in 12,172.6 feet of service pipe this season at a cost of $2,942.76. We have in use 83 water meters—47 of the Hersey and 36 of the Crown. We have encouraged their use, as we consider it to the mutual advantage of the user of water and the town. It is more economical for the water taker as it prevents waste. It is stated by many authorities that the waste of water is reduced one-half by the use of meters. The less waste the more remote will be the necessity of sewerage.

Bonds.

The bonds were issued to the amount of fifteen thousand ($15,000) dollars at 4 per cent. as authorized by vote of the town. We sold them to the Newton Savings Bank at par, they furnishing us with money at the same rate of interest on temporary loans previous to the issue of the bonds. The

entire loan as now adjusted matures as follows:

Five hundred dollars each year from 1892 to 1900 inclusive,	$ 4,500
Thirty-five hundred dollars in 1901,	3,500
Four thousand dollars in each of the years from 1902 to 1917, inclusive,	64,000
Forty-five hundred dollars in each of the years from 1918 to 1920, inclusive,	13,500
And four thousand dollars in 1921,	4,000
Total bonded debt,	$89,500

The contract for hydrants and valves was awarded to the Ludlow Valve & Hydrant Co., May 5th, 1891, at prices same as last year.

Stand Pipe.

The stand pipe has been thoroughly caulked, painted two coats and concreted around the base to protect the masonry, at a cost of $171.00.

We have in connection with the selectmen established drinking fountains at Needham and Highlandville, one near each railroad square. Also three places for watering horses, one near the Baptist church, at Needham, one near the Methodist church, at Highlandville, and one at the junction of Nehoiden street with Central avenue at the Center, at a total cost of $382.32.

There has been such an increase of water takers necessitating the putting in of a large number of services that it has been almost impossible for one person to superintend it as it should be done, and act as engineer, pumping the water necessary to maintain a good fire service at all times. Therefore the board have appointed Mr. J. W. Leonard as superintendent, commencing Jan. 1st, 1892.

The Land Taken and Rights of Way.

The Colburn case has been passed upon by the County

Commissioners, and it is reported that an award has been made. The matter is in charge of the selectmen, the water commissioners not having been authorized to employ counsel. A settlement has been effected with J. W. Titus, Esq. The other land owners have been offered the same advance over the appraisal of Aug. 18th, 1890, as has been allowed Geo. O. Kingsbury, Esq., and Mr. Titus in settlement, or more than four times the assessed value of the land.

Extensions.

There are extensions that could be made to good advantage to the system, provided the owners of real estate would guarantee an income of 6 per cent. The guarantee by the said owners would be more than compensated by the increased value it would give their property. The extensions suggested are as follows: Highland avenue to Webster street; Webster street to Central avenue; and along said avenue to the Upper Falls; Webster street from near Mr. Millard's to West and High streets; May street to Webster street and Nehoiden street. The system has now been in operation more than a year and has proved very satisfactory.

Estimates for 1892.

Your commissioners have estimated what in their judgment will be needed together with the balance of cash on hand, and what is due the department, necessary to meet the interest on debt and the maturing bond and maintainance, including superintendent's salary, as $3,500, and an appropriation for this sum will be asked.

ESTIMATES FOR APPROPRIATIONS.

Pursuant to the call of the selectmen, a joint meeting of the boards of selectmen, assessors and school committee was held on Thursday evening, February 11, for the purpose of selecting a committee to act with them in the matter of recommending necessary appropriations for maintaining the different departments of town government for the current year and arranging for a public hearing upon the subject.

The following committee was selected and duly notified: James Mackintosh, J. Wentworth Brown, Samuel H. Jones, John H. Whittemore, Thomas Abraham, George W. Tisdale, Henry Blackman, Charles A. Low, Curtis McIntosh.

A public meeting was held in the selectmen's room on Monday evening, February 15, at which all the members of the committee were present except Mr. Brown, who sent a letter regretting his inability to attend.

The committee organized by the choice of Aaron Twigg as chairman and Edgar H. Bowers as secretary. All present were given an opportunity to express their views and opinions in regard to everything concerning expenditures, and at 10:15 o'clock the hearing was closed, after which the committee held a session and voted to recommend the following appropriations for the current year:

TOWN OF NEEDHAM.

REPORT

—OF THE—

SCHOOL COMMITTEE

FOR THE YEAR 1891.

On the first day of June, 1891, there were belonging to the town of Needham four hundred and eighty-three persons between five and fifteen years of age, namely: 246 boys and 237 girls, an increase of thirty over the number shown by the census of the previous year.

The number of pupils between those ages who have attended the public schools of the town during the year is five hundred and forty-two. The difference between the

number shown by the census and the number actually attending school is due to the fact that the former includes only those children in Needham on May 1st, while the latter includes some who may not have been in town on that date.

The sum total of bills paid by the committee during the year is $12,581.63, being in excess of the appropriations made by the town and the income received from the Massachusetts School Fund of about $806.80, apportioned as follows: Schools, $288.83, incidentals, $492.07, and books and supplies, $25.90. The sum expended in excess of the appropriation for schools was occasioned by the payment of $356.16 for about fifty-nine tons of coal in excess of the regular allowance for the year, and properly should be charged to the appropriation of the previous year. The sum in excess of the appropriation for incidentals is due largely to the introduction of water into three of our larger school buildings, the Kimball, Avery and Dwight, at a cost of $416.33, as follows: Paid the town of Needham for laying service pipe to Kimball school-house, $17.20; Avery school-house, $65.99, and Dwight school-house, $71.34. Paid for plumbing Kimball school house, $86.00, Avery schoolhouse, $88.35, and Dwight school-house, 87.45. These expenses, which occur but once in the history of a school, should have been provided for more properly by a special appropriation and not charged, as they have been, to the incidental account as a part of the running expense of the year. By reference to last year's financial report of the committee it will be seen that the unexpended balances of that year, if continued for the same object, would have very nearly covered the above deficiences.

Your committee recommend appropriations for the coming year of $10,400 for schools, $600 for incidentals, and $700 for books and supplies.

During the past few years the number of pupils in our

high school has very nearly doubled, so that at present it is by far the largest school in town. It has but two teachers, a principal and an assistant. Considering the increased size of the school, the large number of classes in it, and more especially the character of the branches required to be taught, it seems almost impossible for only two teachers, without other assistance, to do justice either to the school or to themselves. If the high standing which the school has attained under the management of its present efficient principal, Mr. Frederick L. Smith, is to be maintained in the future, the time will very soon come when the services of a second assistant will be absolutely required. Should the class to be admitted the coming fall prove to be as large as those of the last two years the committee will be obliged not only to engage another assistant, but to provide additional accommodations as well, the number of pupils now in the school being more than its present seating capacity will accommodate.

Respectfully submitted for the Committee,

EMERY GROVER,

Chairman.

F. De M. Dunn, Librarian.

A careful examination of the foregoing and comparison with former reports, will show a most gratifying growth of the Library in number of volumes, and therefore an increase of shelf room needed to properly arrange the books in convenient form, so as to facilitate the labor of those in charge and enable them to quickly transact the business of receiving and delivering books to those waiting for them. It seems unnecessary to repeat former requests in regard to sending in lists of books desired. The same appropriations as in past years are earnestly recommended.

SAMUEL H. JONES,

Chairman.
